SUMMARY

Software development involves building and maintaining websites by learning front-end and back-end technologies, focusing on creating responsive and user-friendly web applications.

SKILLS

- Java
- JDBC
- HTML
- Servlet
- CSS
- VS Code(Tool)
- JavaScript
- Windows (OS)

PROJECTS

Personal Portfolio Website [\(Link\)](#)

- Designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript
- Experience in developing mobile-friendly, responsive websites ensuring optimal user experience across devices.
- Implemented dynamic elements like a project gallery with filtering options, smooth scrolling navigation, and a contact form using basic JavaScript.

Weather Application [\(Link\)](#)

- Built a dynamic weather application using HTML, CSS, JavaScript, integrating a public API to fetch real-time weather data based on user input.
- Designed an intuitive UI that displays current weather conditions, including temperature, humidity, and wind speed, along with icons representing different weather states.
- Ensured the app is mobile-friendly and fully responsive, providing a consistent user experience across various devices and screen sizes.

Pharmacy Store

- Developed a Java-based application for managing pharmacy inventory, sales, and customer information, streamlining daily operations.
- Integrated with a MySQL database to store and retrieve data efficiently, including product details.

EDUCATION

P.M.B. Gujrati Science College, Indore (M.P.)

Bachelor of Science in Computer Science(2019–2022) - 69%

Saraswati Vidhya Mandir, Bhanpura (Mandsaur M.P.)

High Secondary School (2019) - 79%

High School (2017) - 90%

CERTIFICATIONS

Certified java Developer

Successfully completed a comprehensive Java certification from Universal Informatics, demonstrating expertise in Java programming
